Create the best tea and coffee ever with our new
water filter cartridges „longlife“ or „universal“
and our design water filter system.

Taste the difference!

Perfect Water

TEA & COFFEE

Discover water filtration
in a **NEW** way!

Our formula for perfect taste:

- Reduction of lime scale
 - Reduction of heavy metals
 - Reduction of substances affecting the natural taste
 - + **Release of the mineral magnesium Mg²⁺**
- ⇒ Perfect taste and flavour for tablewater, tea and coffee**

Full flavour & rich taste!

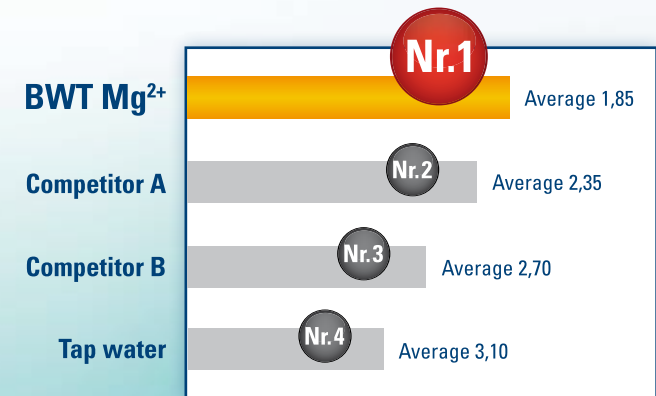

Best tea and coffee with innovative Mg²⁺-formula!

BWT TEA & COFFEE improves the quality of your tap water in a way that no other filter can do. The release of the vital mineral Magnesium makes it a class of its own. It is not only good for your body but also greatly improves the taste of water itself, tea and coffee. Undesired substances like lead and chlorine are removed and the build up of lime-scale is prevented.

Mg²⁺ makes the difference!

Tea with Mg²⁺ is clearly preferred in tastings compared to competitor's products and regular tap water:

Question to test persons:

Testperson have been asked to name their preference of tea and build a ranking (1=best, 4=worst).

Source: SGS, Institute Fresenius, 2008

For all tea & coffee lovers!
